

Contact Manager V1.02 – CS700/CS701 DMR Radio

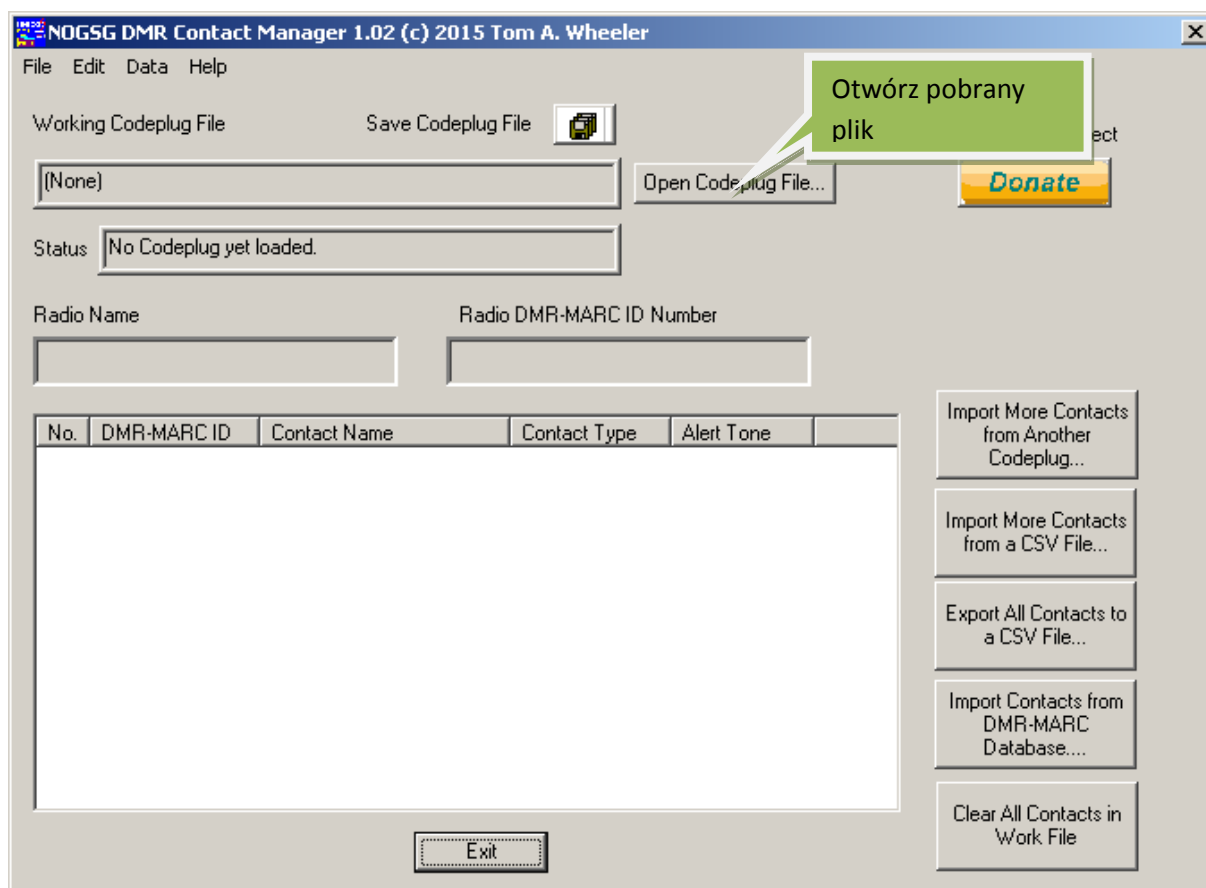

Pobieramy program ze strony autora:

<http://n0gsg.no-ip.org/contact-manager/ContactManagerV102.exe>

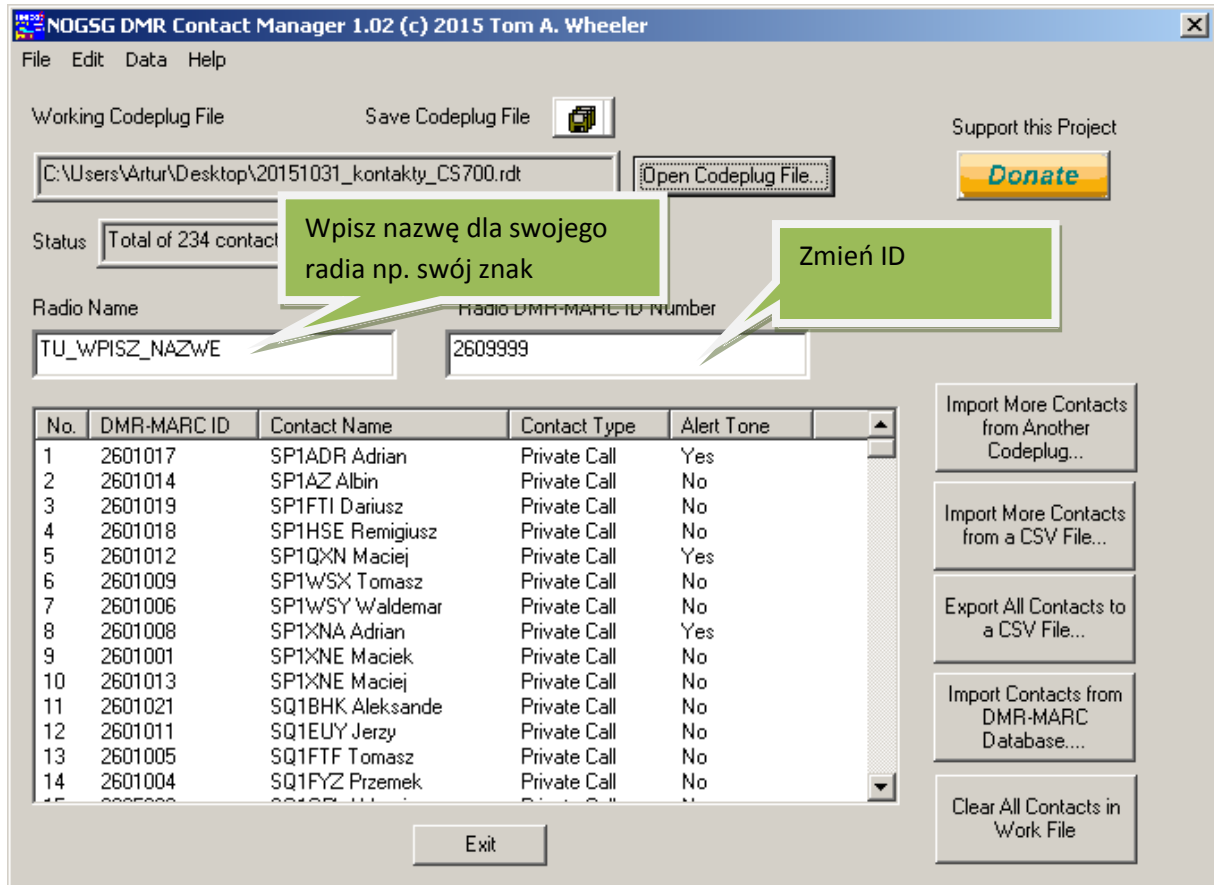

Pobieramy plik z CPS do CS700 ze strony SP-DMR:

<http://www.sp-dmr.pl/download/>

Uruchamiamy program:

Po otwarciu:

Następnie zapisz Codeplug i za pomocą dedykowanego do radia programu wgraj plik do radia.

Opcje:

The screenshot shows the NOGSG DMR Contact Manager 1.02 (c) 2015 Tom A. Wheeler application window. The interface includes a menu bar (File, Edit, Data, Help), a 'Working Codeplug File' field with a file path, a 'Save Codeplug File' button, and a 'Support this Project' section with a 'Donate' button. Below these are 'Status' and 'Radio Name' fields. A table lists contacts with columns for No., DMR-MARC ID, Contact Name, Contact Type, and Alert Tone. On the right, a vertical stack of buttons offers various import and export options. Green callout boxes with arrows point to specific buttons and table rows, providing Polish descriptions for their functions.

No.	DMR-MARC ID	Contact Name	Contact Type	Alert Tone
1	2601017		Call	Yes
2	2601014		Call	No
3	2601019	SP1FH Danusz	Private Call	No
4	2601018	SP1HSE Remigiusz	Private Call	No
5	2601012	SP1Q...		
6	2601009	SP1W...		
7	2601006	SP1W...		
8	2601008	SP1XI...		
9	2601001	SP1XI...		
10	2601013		Call	No
11	2601021		Call	No
12	2601011			
13	2601005		Call	No
14	2601004		Call	No

Callout boxes and their corresponding functions:

- Import pliku .csv (points to 'Import More Contacts from a CSV File...')
- Export do pliku .csv (np. do obróbki listy) (points to 'Export All Contacts to a CSV File...')
- Pobranie nowej bazy znaków online (points to 'Import Contacts from DMR-MARC Database...')
- Czyszczenie aktualnej listy kontaktów (points to 'Clear All Contacts in Work File')

Po wybraniu opcji „Import Contacts from DMR-Marc Database” otworzy się dodatkowe okno:
